Guided tours and animations

The educational team invites you to discover more about the park and its amazing animal and plant diversity!

Find out more about the guided tours and animations by scanning the following QR code. The catalogue is in french, but feel free to contact the team for more information and the possibility to adapt a tour/animation in english!

All the activities are free upon reservation.

Tours and animations are cancelled in case of rain, weather alert or very severe fire risk!

Montpellier is engaged in a sustainable development policy. In this context, Parc de Lunaret and its zoo are preserving endangered animal and plant species.

This environmental policy is reinforced in the zoo with the restauration of the local scrubland, the management of the forest cover and renovation works.

This exceptional natural heritage is nonetheless fragile due to its exposure to fire risk. It is everyone's responsibility to respect the park's rules in this environmental and forest fire prevention context.

Counting on your cooperation to respect the safety instructions, we wish you a pleasant stroll in one of Montpellier's largest greenery!

Michaël Delafosse
Montpellier's mayor
Montpellier Méditerranée Métropole's president
